19.06.1991

DESIRABLE POSITION

Junior iOS Developer

ABOUT ME

I have been an engineer for five years and now I'm restarting my career as an iOS Developer to meet new and interesting challenges and to realize my dream to become a programmer, that I carry in my head from high school times! I'm very interested in personal grow as an iOS developer and aim to start my first developer job at your company. I'm highly- motivated to work with a new team and in a new environment. Learning something new was always a pleasure for me, so I'm ready to learn and cannot wait for a new job!
